Partial
6.2 Strategy Development and Deployment
6.2.1 Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):
❖ Curriculum Development We follow curriculum prepared by BRA Bihar University of which the college is a constituent unit. However, our faculty members are on syllabus boards for enrichment of the curriculum.
❖ Teaching and Learning Creation and enhancement of the infrastructure of the institution is need based. It is assessed by IQAC in consultation with the college development committee for effective teaching and learning process, keeping in mind the optimum utilization of resources.
❖ Examination and Evaluation At the closing of each session, students are requested to select one topic each from different modules to present a seminar paper. We also try to ensure that it does not remain department-centric but make it interdisciplinary in nature. Credit points given to the students/participants of the seminar form the basis of the internal assessment component of the semester examination.
❖ Research and Development The college has a Research Committee to monitor and address the issues of research. It is

<p>composed of faculty members of different departments of the college. It has been instrumental in promoting research work in disciplines of Social Sciences, Humanities and Science. In the year 2013 the Committee has recommended and forwarded 18 Minor Research Projects to UGC for financial support. It is also planning to formulate a work plan for interdisciplinary research.</p>
<p>❖ Library, ICT and Physical Infrastructure / Instrumentation The Library Advisory Committee consists of Principal as Chairman, Librarian, four faculty members from social science, three faculty members from science & one student representative. It caters to the growing need of the present and future requirement of the library. The committee in its various meetings have recommended valuable positive suggestions to make the library student and user friendly, for example separate spaces for teachers and students have been created, subscription of online journals, Internet connection & browsing facility etc. have been provided. Besides, the library has created a space for physically challenged students on the ground floor.</p>
<p>❖ Human Resource Management In order to improve the quality of human resource management. we organise workshops to educate the faculty and the staff in matters of governance and routine work.</p>
<p>❖ Industry Interaction / Collaboration We have signed MOUs with our industrial partners like Prasad Hospital, Muzaffarpur, Maa Janki Hospital, Muzaffarpur, Shashank Automobile Pvt. Ltd., Muzaffarpur, in the current academic year for the community courses.</p>
<p>❖ Admission of Students Centralized admission process conducted by Government of Bihar through OFSS.</p>
<p>6.2.2 : Implementation of e-governance in areas of operations:</p>
<p>❖ Planning and Development As the recruitment policy of teachers lie in the domain of chancellor's office, the college has no free hand in selection of its faculty members. However, they are encouraged to join orientation/refresher courses periodically to meet the changing requirements of the curriculum. The college plans to recruit and retain the best quality teachers in vocational courses.</p>
<p>❖ Administration The Principal, HODs and the faculty members of the different departments along with members of the various bodies of the institution are directly and indirectly involved in policy statements and action plans for fulfillment of the stated mission. The is ensured by</p> <ul style="list-style-type: none"> • Formulation of action plans for all operations and incorporation of the same into the institutional strategic plan. • Interacting with stakeholders. • Proper support for policy and planning through need based analysis, research inputs and consultations with stakeholders. • Reinforcing the culture of excellence and having flexibility for desired organizational changes.

❖	<p>Finance and Accounts</p> <p>The faculty members are included in the administrative and financial committees of the college, thus, leading to an ambience of participative management. The students are also involved into various committees/ cells of the college. Their views are also taken into consideration before arriving at any final decision</p>
❖	<p>Student Admission and Support</p> <p>Coming to the domain of student support and progression, the college, in order to facilitate the process of admission as well as teaching learning process, publishes updated prospectus annually to ensure its commitment and accountability to its declared vision, mission and objectives of holistic development of students' moral, personality and economic prosperity. The college strictly follows the reservation policy of central and state government. Besides, it is highly friendly to differently abled students, slow learners and extraordinarily brilliant ones. We publish year wise college magazine '<i>Pushkarni</i>'. To cater to their job needs, the college has taken recourse to a good number of vocational courses added by a community college where marginalized sections of the society are particularly cared for. Student progression from UG to PG is appreciably high and from PG to Ph.D significantly remarkable. The progression figure ranges between 50 and 60 percent.</p>
❖	<p>Examination</p> <p>The college collects and analyses data with help of the office of the examination controller. A graphic representation is constructed for judging and analyzing the data outcome.</p>

7.1.7 Initiatives taken by the institution to make the campus eco-friendly (at least five)

The College building has adopted electronic chokes and CFL bulbs for reducing the electricity consumption. On account of the college building being airy and having high ceiling the use of air conditioning is extremely limited. Computers, Printers, Copiers etc. which are not in use are shut down. It is ensured that fans & light are switched off in unoccupied class rooms and laboratories. Students & staff have been sensitized to the need of energy conservation. Energy conservation project has been carried out by our students.

Eco Club of the college consisting of a team of teachers, local environmental activists and students act as a nodal agency for taking initiatives for green audit. Besides, forestation undertaken by this agency and Department of Forest, Government of Bihar, the Department of Botany of this college is undertaking efforts for mapping and conserving the bio-diversity of the L.S.College Campus. It shall be pertinent here to add that the sprawling campus of college has a rich variety of flora: some of which are more than a century old.

7.2 Best Practices

Describe at least two institutional best practices

Best Practices

1. Title: Value oriented Socio-Scientific Education.

(a) Goal:

L. S. College was founded in 1899 in the backdrop of emerging nationalism. As such it contributed a lot to the cause of freedom struggle as the best practice of the institution. The nation building programmes were further incorporated as best practices when we got freedom from British imperialism. Since 1947 the college has been alive to the growing challenges of our time which demand incorporation of scientific and technological education. But the college is also very particular about the fact that lopsided scientific and technological education bereft of value oriented conventional education will not do for building that Bharat which our great forefathers dreamt of. Hence, the college tries to establish a balance between the technological and vocational education and conventional one. The goal has been to produce students possessed with holistic personality dedicated to the collective service to the society and the nation.

(b) Context:

The faculty members of different departments, the IQAC members, and the top administration have realized over the years that the higher education bereft of the value oriented teaching and learning has resulted in producing students as robots who, though men and women of genius in their particular fields of instruction, are not proving themselves to be good citizens. They are becoming more and more money-centric. This has led to the growth of a very deadly syndrome of caring for the narrow self-interest at the cost of the exploitation of others. Keeping in view the glorious past of this college which grew to serve the collective interest of the society and the emerging nation of India, we have decided to preserve its laudable tradition and see that if we retain the contents of the value of oriental education along with technical and vocational instruction, we may be able to produce students who would be helpful in creating a society free from corruption, poverty and exploitation our society, our nation is terribly beset with these days.

(c) Practice:

In actual practice, we enlist some of the noted values of Indian culture and socio-scientific pattern of instructions and discuss them periodically. For example, they are nationalism and patriotism, cultural pluralities and their respect, socioeconomic understanding of the rural and urban societies and our service to them, joint family as a social unit and its values, tolerance towards different religious faiths and values attached to them for a peaceful and prosperous life, inter-personal relationships and human respect for womankind, a concern for the marginalized and the depressed sections of the society, values embedded in health and hygiene, particularly in the context of growing allurements towards drug addiction among youths in and around the campus.

Every department of the college organizes debates, talks, discussions, cultural activities, paintings, essay writings, project works, etc. on the issues involved. The college administration too, from time to time, organizes such debates and discussions and holds cultural activities on important dates like Independence Day, Republic Day, the Foundation Day of the college and others which nourish and enrich the avowed values of nationalism patriotism, social service and brotherhood. Our NSS and NCC units are very keen to see that socio-economic

services to the community are well attended. For this purpose these units periodically organize philanthropic activities. We also organize parents, teachers-cum-students meet to discuss the above-mentioned issues. From time to time, the college organizes sports activities to enrich not only the values embedded in health and hygiene but also to promote values of cooperative life and national pride. The faculty members of different departments meet together, particularly in the Department of History, to discuss the necessity of value-oriented education along with the growing need of promoting and adopting the Info tech instruction.

(d) Evidence of Success:

The evidence of success in the field of value-oriented socio-scientific education can be gleaned from the following points:

- The state government identified this college as a centre of excellence on 05.12.2012.
- Students from all over North Bihar first prefer to seek admission to this college.
- The cut-off marks for admission to this college in comparison with others have always been very high.
- The ranking position of the students of this college in the university has been very high.
- The pass percentage of students of this college has been high in comparison with other institutions of the university.
- We have a long list of value-oriented and scientific research publications. Besides, we have a grate number of research scholars.
- In order to promote national and secular values, the college has organized a series of lectures inviting Scholars not lesser than Ashgar Ali Engineer, Badrinarayan, Mammen Mathew, Md. Sajjad, Harisbansh and others.
- Our students have taken to field studies to promote nationalism, patriotism and collective service to the nation.
- To cater to the job requirement needs of the marginalized and disadvantaged group of students, we have set up a Community College.

(e) Problems encountered and Resources required:

Problems encountered and resources required are as follows:

- A systematic attack on the values of conventional Indian culture of sacrifice and service to others.
- It is well evident that we are faced with the onset of globalization allured by the western concept of consumerism. They are easily swayed away by the slogan of 'earn and burn'. In this way, they are neglecting our age-old values of sacrifice and service to others. It is a pity that central and state governments are also upholding the global consumerism. Hence their educational policies are to promote prominently such type of education which generates employment. Employment is a necessity but not the only necessity of a person. A person devoid of noble virtues would be just like animals. That is what we are becoming these days. But the problems is that the consumerism wind is blowing too hard for the noble virtues of Indian ethos to stand. L.S.College is trying hard to preserve and promote the noble virtues of Indian culture along with meeting the employment challenges of the time.

(f) Resources required:

- We need financial help from Government, Government aided institutions, NGOs, support and community support.
- We are in dire need of human resources upholding the ideals of value oriented socio-scientific education.

7. If the college achieves autonomous status, we will be in a better position to carry out our best practices to our maximum satisfaction.

2. Title: Inclusive Education for the Differently abled & Socio- economically Disadvantaged.

(a) Goal:

- It aims at creating an environment of belongingness and mutual respect and help for each human being on campus.
- It endeavours to promote an atmosphere of socio-economic justice on campus.
- It is an attempt to meet the global requirement of human rights obligations committed by our welfare state and the nation.

Having set up these goals and trying to achieve them optimally, the college aspires to be one of the most positive looking educational institutions of the state and the country.

(b) Context:

IQAC members of the college feel deeply concerned about the census result in 2011 that 2.1 percent people in India are differently abled and out of which 1.9 million are only in Bihar. It is one of the highest percentages of the total differently abled persons. It has been found that in Muzaffarpur they are not only differently abled but most of them hail from socio-economically disadvantaged groups. Hence, they are often faced with awesome disadvantageous position in comparison with the general students. Sometimes, they are exposed to isolation and humiliation. This they feel much when they come having received their schooling from special schools made for them. They find that general colleges are not very much friendly to them. Having been faced with such challenging issues, we have decided to take up the cause of inclusive education policies and programme to lessen the difficulties of such students and to instill in them a sense of dignity, self-respect and socio-economic security.

(c) Practice:

(a) The college, with the aid of our differently abled Professor, Dr. Sangeeta Agarwal of the Department of Sanskrit, is establishing an Enabling Unit for visually impaired and low vision students. We propose to name it as project LSC-SIGHT. This project has been designed keeping in view the special needs and challenges of the visually challenged in particular and of low vision in general. Towards this end, the project LSC-SIGHT would involve the practices such as:

- It would print books in audio-formats.
- Audio format CDs would be provided to visually challenged students.
- They provided equipment for hearing, such as head phones.
- The unit would provide comfortable sitting arrangements.
- The unit would try to convert important texts of the library into Braille Script.
- The unit would also work as counselling cell not only for its own students but also for all such students who come to the cell.
- A certificate programme for the visually challenged for a varied tasks as scanning, editing, reading, teaching and others as the need may arise.
- It is geared to provide personal and family guidance for helping the visually impaired.
- It also intends to support visually impaired and slow vision students to take part in co-curricular activities and make them feel an essential part of the society.

- It has been found that many visually impaired ones are deprived of available opportunities owing to the lack of finances and awareness. This LSC-SIGHT intends to provide them with these services.

As for helping the socio-economically disadvantaged group of students, the college has adopted the practice of generously granting all the financial facilities provided by the state and central governments like free studentship, half free studentship, poorboys' fund scheme, hostel accommodation on college campus, remedial coaching, competitive examination coaching, English enhancing classes through language labs, opening up of Community College with courses like Automobile Engineering and Financial Management (Retail), Human Rights certificate course, by organizing awareness programmes of promoting socio-economic justice such as debates, seminars, talk and cultural activities, competitions and others. In all these the NSS and NCC units of the college play very vital roles. In these activities we are not confined simply to our campus, but we venture to take up such activities even beyond the campus, such as the slum areas and socio-economically depressed areas of habitations.

(d) Evidence of Success:

Our esteemed teacher Dr. Sangita Agrawal has been generously helping such students in her own capacity on campus and outside campus. She has submitted her proposal for establishing the LSC-SIGHT very recently and we hope to establish it as soon as possible and would be able to provide concrete evidences of success to the peer team whenever it visits the college.

As far as other facilities provided to them, we have the evidences of

- making the college campus wheel chair friendly.
- we have a good number of students enrolled in various disciplines who are socio-economically disadvantaged such as

Year	SC/ST		OBC	
	Male	Female	Male	Female
2017-18	496	72	1418	273
2016-17	455	39	1113	206

(e) Problems encountered and Resources required:

We are faced with unawareness of policies and programmes regarding differently abled persons, though the constitution of India has signed and ratified the United Nations Convention on the Rights of Persons with Disabilities(UNCRPD) as early as in 2008. Another problem encountered is lack of needed financial support and paucity of committed resource persons. Still we hope to overcome them with our strong will and dedication to the cause and would keep up the reputation of the college.

7.3 Institutional Distinctiveness

Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust
Provide the weblink of the institution in not more than 500 words

In the backdrop of emerging Indian nationalism in the last quarter of the 19th century with its quest for an educational system incorporating the ethos of Indian value system and nationalism, Langat Singh College was founded in 1899 with broad based community support. In the course of time, it has evolved into the most prestigious institution of learning in North Bihar. Its claim of being a parent institution of present B. R. A. Bihar University is justifiable on account of the fact that all the postgraduate departments of the university have branched out from this institution. The overarching aim of the institution is to shape the students into a sensitized, self reliant citizens of the country imbued with the ideals of secularism and scientific temper.

Like any other pristine institution, the vision, mission and objectives of the college have some core essentials which are timeless in nature and characteristics but the flexibility is also reflected in the above categories with the incorporation of the needs of the changing time and the demands of the society.

8. Future Plans of action for next academic year (500 words)

- To strengthen industry linkages.
- To strengthen National and International linkages.
- To strengthen alumni participation.
- Clean & Green Campus
- Cloud Based Student Database Package.
- RFID enabled attendance system & Identity Card for students.
- Digital Notice Board for interactive / real-time publication of emergency notices / information to the students/ Public Address System for regular use in the college.
