# Advantages of Compositing-free Technology

Advantages

## Fast Treatment

- Only **3 to 8 hours** from feeding to the end product
- No further treatment is required
- End product is ready to use directly

## Advantages

## No Secondary Pollution

- Composting-free equipments are designed and manufactured for **pollution free**
- No bad smell and secondary pollution  
(Air & Water)

# Advantages

## Carbon Storage

- Composting-free use enzyme to react with organic matter
- Nearly no CO<sub>2</sub> emission
- The reduced CO<sub>2</sub> emission can be re-sold to the **carbon market**
